TIERRA DEL FUEGO : "… when he came to school at the Monastery, Order of the San Julian Monks, *JEAN my mother writes me,* ***(LETTERS FROM JEAN 1920s-1930s)*** **her great grandfather, he was 7 years of age**
…
his Noble family mother knew he had to have a very good EDUCATION to survive the times so that was why she put him in with the SAN JULIAN MONKS
…
her family had lost authority & lands & moneys 17th century then risen up in the 18th century & she & her brother were HEIRS to these big families of her pre-CONQUEST PEOPLES
…
but TIMES WERE NOW DIFFICULT with GREED from Europe mounting horribly in 19th century,
grasping for fishing fields,
minerals,
coal, wood,
& using slave labour of whole families who never saw daylight
…
died underground

…
“
ate the excrement of donkeys very often to survive

… “ Once she, his mother, knew he, her son Y. Josef, was interested she began to recall family histories …**at first she could not remember the family name - then she did -**
PANN Oou Chay,
the old people in the family had never forgot
-

she took him to see everyone
- She could now recall a lot she had heard as a child - her brother, younger, could not remember anything
…
`
PANN oOuw Chay` that is the nearest we can hope to get -
THE SPANISH did not take their lands but put everything in a document, then in a book
…
the lands were vast & she retained at her marriages 200 or 300 miles of lands from Saint Julian`s Bay onwards South
…
it reached along the coast to the bit at the tip -
SHE HAD HER DEEDS IN A BOOK
-
this Inventory the SPANISH had made soon after the Conquest
…"

" They were the leaders of all this land, our ancestors from San Julian, they are Leaders, Chiefs,
not
Kings & Queens
…
On his father`s side he is the direct descendant of the Ancient Mathematician Astronomer Priest Kings of the INCA -
you visited them with your family in 1936 & received an honour it was felt you were suitable to grow into your great-great grandmother`s
role -
my mother JEAN
gave it to you from her grandmother the AELOVEDAH-Maria Miss San Julian.
…"

" The Order of San Julian Monks running the school said he, the Inca boy, did arithmetic in the air & he was the star of the class
…

His mother`s people we find are more like early MORMON - but only took one bride &

there is a code of chivalry before the SPANISH come in
…
the name begins to change
first
to `MAN- oh- lay` something like that
…
she did not have the skill of her mother in MEDICINE for that is the role the most important woman of the Tribe had the care of - folk healing medicin
e
…
But he had & it suited his Catholic philosophy & his knowledge of the vastness of the globe -
he has written much on being out in the sub-arctic seas -
& his book would have been better than the Weddell book, we have to say
…"

" **When JOSEF first appeared in the classroom at the Saint Julian monks monastery he was rather like this ancient family -** led a simple life & had a direct concern for all his families , all the group he came from … **as they displayed before the CONQUEST by SPAIN & afterwards**
…
He is pure of heart & soul -
but with a leaning towards philosophy welfare & medicine
…
The family were Catholic -
she began to collect records & the old people were glad
& he her young son heard much oral history but the most important to him were the letters the documents the names of the people, some his people on his mother`s side
…
he could realise they had given him LIFE
…"

" JAMES WEDDELL was his friend of many years - they did much Welfare work down there - th is QUAKER of good families

& a Roman Catholic leading family of the INCA
…
He is the son of the direct line survivor & the Monks & his Peruvian families trained him well
…
he came to school with exceptional mathematics & an interest in the STARS
-
this was passed to my mother JEAN & her sister -
they had the use of his library for 2 years after their father James
elder son of J.W. & The Aelovedahm
died
JEAN your grandmother ballerina is 10 years old
…
MINERVA takes to writing poems
ballads, philosophy after midnight into the early hours
…
JEAN & her sister would sometimes wake & go sit with her
…
“
Our Mother was rather mystic, spiritual, a fairy figure to us as children
…
we did not understand she had now to provide for us & the FUTURE
…
she was stressed & put us to learn ballet -
but we also read in great-Grandpa San Julian`s library -
he told you how to proceed -
& gave us so many interests in everything in the world
…”

“ … WEDDELL, **our great-grandfather: your father & Len & I am John …** ***who had to be hidden in the USA for this family related to our grandmother Millie Frobisher Ransom had claimed from the marriage 1883 ALL our GROTE HOMES RANSOM***
Estate
-
The LINDSAY attacked me at 1 month old & are known to be criminally insane on a dope they grow & use
…
But James Weddell was to return from Gross Britain as full GOVERNOR down there - he & his father-in-law Y. Josef San Julian as Acting Governor had got improved conditions for mines workers & families & for the BLACKS who all Traders used as a form of sub-life

…”

“ **This Office Acting Governor had no salary but it had expenses from Spain -** San Julian did not need money as he had become rich with his 3 ICE BREAKERS his travel bureau & his productive gardens around his great home
…
She, the only child, had grown up with Weddell around
…
her comments upon him after her marriage are so endearing & motherly
…
but the good ship JANE fell to pieces on the way back to Great Britain 1829
…
he did not see his wife & sons again
…”

“… They made a TOUR to ROME *but expected James Weddell might come with them,* meet them there
…
Here curiously was a
LINDSAY
with other penniless aristocrats & they had a PORT WATCH on travellers coming in
…
we think their TRICK was finding rich people & muddling them over the currency
…
the GIFT that SAN JULIAN MAKES TO THE VATICAN may not be at all what these British noble crooks took off him in the matter of EXCHANGE
…
He returned to his Ventures very broke & soon had to sell the big house
- we have photographs of it & of a hugh gathering in the gardens when he was at his job of Acting Governor
…
& at the marriage OF THE ICE WHITE BRIDE his only child to JAMES WEDDELL
…
a newspaper exists

…
yet we hear now that Weddell was a low seaman who NEVER married & by chance got the SEA named after him & it should be removed & given to other names !
”
(Dr John RAY R.
working for USA Washington Department of State
was in WHITES CLUB St James 1958
hearing ugly crimes planned)
…

“ It is the GOOD QUAKERS who presented a case for the sub-arctic SEA to receive his name after the publication of his book … & after his death in that little house Deptford waterfront … where JEAN my mother, ballerina,
first met my father 1907,
she a young widow of spain ,
Frederick Charles Frobisher RANSOM & she marry in 1909 & the LINDSAY INTERFERENCE BEGAN
…
she thought of buying the little house where her grandfather JAMES WEDDELL
a great Mariner
lived his last dismal years
…
”

1820s-30s **-** “ **…** THE ADMIRALTY & their TRADING PARTNERS would NOT let JAMES WEDDELL BACK … he is imprisoned in the little house DEPTFORD that we bought … he had to raise a FLAG every morning so an old retired ADMIRAL across the River Thames could see it,
he must lower the FLAG at sundown so this old monster could see he had not left -
they threatened his family in South America - all of them
- IT WAS SPOKEN UPON, WRITTEN UPON in Gross Britain, that he Weddell & his APE father-in-law
would interfere with their PROFIT -
profits

from a ghastly inhuman TRADE in slaves & natural history
…
1800s & onwards -
we have records made by a young RN in 1880, he so shocked at what his nation could do & with other white nations
…
