1936 April `LIR Lennie says Mr Paul Whiteman was given a very good education by his
father- he tells the grown-ups how his father then went off to the tropics to drink
moonlight- Well he did feel it was a certain amount of dope-it was
the age they were in- his band did not touch it- if
anyone got into trouble they helped

-
*It was felt the attack on us - Jean Len & me in Mexico was because these monsters of the
deep were all on dope-*

He would pass it around the town that the ring-leaders were two women & Mr Pong & the Noble

who expect Len to call them `Uncle Lindsay`

The New York hospital were keeping JEAN in until she could dance- for 2 months-

I had been in 5 days & recovered-they got the glass out of me- Len told them of the

(They are all coming up to Jacopsholmen Island & going round the HOMES to help when
they have a holiday-I remember sitting on a high white bed a dismal window long a cold
light-then they all came in-& I began to talk-Lennie translating ...I HAVE A STRONG
HEART-& am so many Races

)

Len said **`Mr Paul Whiteman was very angry when he got the hospital report that morning-** he was going to have Senators tell the Embassy of the British to **KEEP THEIR HANDS OFF OUR BANKS** **-& that was why we could not go & get what we needed from banks where Aunt Mag had arranged funds in our names for the travelling-in New York we were told we could only have two pounds a day-** but they thought we were children of these Monsters of the Deep- **they had been told so-** but like everybody else they could not get anything in writing from a falling Empire- hum !
` They were rude calling us Eskimos & Apes
