*POLITAN 1960 & 1972*

... she felt no care had been taken of the orphan children ... by anyone ... but she did not blame the RANSOM YOUNG PEOPLE ...she blamed TRUE BLUES who were greedy ... & had no education ... '

" ... It was 1934 - & she *a former Miss RANSOM* - I have all the details in the papers over there- *(she pointed to a pile of flat boxes)...*

` I think her name is Margaret - or very like that - she gave them the key to her Welsh cottage to use when they would like to take a holiday - she did not go there - she had not the time ..."

( *nota bene* : Bessie & Annie called this Holy Woman Margarethia - & were impressed that although she was not a Catholic she called by invitation to tell Popes about the globe A to Z -)

Miss Teresa Mary Butler (soon a Martyr) continues :

1959 December - " IT IS THE MATTER OF MY NIECE ...

*Greetah* RANSOM - It began I believe in sometime June 1933 - I did not know until the  
autumn - then I went up  
there - sat on  
the Island month of October - a lovely place that month -  
her mother  
*my cousin Teresa*  
& the true blues tried kill the child made heir by the old lady...  
when she was born -

They needed a figurehead to train for the family ...those who took care of the Estate -  
then the boy her Uncle was chosen too - he was a great favourite & comfort to my Aunts  
- Bessie & Annie ... He could draw & speak  
languages - so they always welcomed him coming to the seaside after the marriage of  
Teresa to young Fred RANSOM -

1932 that was...`

1933 - October - **I went to the Police & to the Solicitor - I explained I was the eldest of us & the trouble my young Aunt Mary had from the end of the Great War... this is what I heard**

- ` **Police were called but by then the Party had left the island & babe had been discovered under the floor boards -**

Greta Ransom first child of the marriage...”

“ **The house had been prepared for winter - nobody would come by again - perhaps in November to check outside - The unwelcome visitors - there had been damage & a fire outside - things carried out & burned - the marble dog was broken in pieces beside the pump - & Mrs Grote’s jewel box - it was of lead - there was a fashion for this/Shakespeare...it was empty & broken... then the tales from the Island women who had dared feed the child put in a privy outside in a bucket or a bowl ...”**

Nota bene : The dog is Rienzi - who lived on Jacopsholmen Island - Frederick & Gertrude got him to keep Tiggy in the playground & not wandering off into the snows with his scientific experiments age 11 years - they had lost their first born FREDERICK RANSOM & Greenland cousins  
7 /8 years old down a crevass ...  
*the little bodies are still there ...*  
*save them before these monsters burn them*  
*to destroy the DNA ...*

“ **The Police told me - *we had Police connections* -**

**... it was said two local women had first found the child in a privy - in a bucket - it had no**

clothes on-

it was not fed - they crept back when they knew *the true blues as I call them* ... these Noble families - were away & they fed the child - sometimes it was in a bowl ... Newspapers had been used to clean the child in some fashion ... Some superior Church of Scotland figures do not shine in this ... On account of the Lindsay family having been in Police trouble before it had been hoped to prosecute them ... strike while the iron was HOT !  
...

( George Gordon came from 9th Lancers 1892 to The Police Force after his father died & the family found money tied up by the Solicitors for the only grandson in Scotland ! The 5 young men all saw that their mother & 2 sisters had home & kept the carriage ... Edgar youngest was only 10 years old ... Henry Frederick GORDON the eldest son went to work the RAILWAYS alongside the writer of a novel in progress THE CASK *first modern detective novel* 1920 -

“ *needed another character last night Henry- so I have written you in* ” )

Miss Teresa Butler / several reports /collected 1960/

“ 1933 summer ARRAN - some men in a fishing boat reported fires ... & saw books floating ... but they had been in the sea some days ... it was a collection of bibles & holy books that were being wheeled to the jetty & tipped in the sea - Mrs Grote's husband had made this collection - they were of every tongue in the world - Some paintings were taken to a shop - but they could only be given a few pounds - so they were burned on the fire outside the house - they were paintings by Gericault - Mrs Grote's father knew him ... the matter of the Raft ...

**TMB**

“ **Then the people - a woman & three men - there were others earlier - left the island it was believed - some Clergymen had been asked earlier - but did not interfere - *They were nobles that came ... you see* - The child could not be seen . ”**

“ ... **The damage was horrible to the inside of the house ... the house was to be secured - locked up-for the winter ... it was decided NOT TO TELL Mrs Grote ... Aunt Margarethe as children of the island called her when she was in residence ... then it got about that this child of 4 months was her heir ... local people were frightened at what they had seen ...”**

“ **The curtains embroidered by Mrs Grote's Greenland Eskimo relatives - her mother's relatives - had been burned - they had embroidery of the history of Greenland - they were made for her wedding ...**

The women were asked to go & see if her wedding dress could be found & to bring to safety ...

The Solicitor had given orders to tell her there had been a fire - she **MUST NOT COME BACK** - until they had tidied the house & grounds...”

“ ... It was hard for her after her husband was killed - he had circumnavigated every year & she could catch him where she would round the world - she had a house in New York where her husband`s people were ... but she preferred to be where she could see her relatives - They had an ancient farm Montrose Scotland - & they would all get together up there -
