

1976 September - ANDRE MALRAUX - **he asks me to look into**

his eyes...before he begins to speak “...try & remember -

it is only something they have done to you & sometimes

they did it to me - ... **STOPPED LIFE !**

We had a little Wedding - I was happy & I think so were you -

we tried again & I was happy very happy Greta Maureen ...

& so I think were you...THEY HAVE DONE IT - STOPPED LIFE ” !

(Stopped lives & KILLED FOR THIS MONEY & ruined the globe)

I am like a person in a dusty glass jam jar - I often experience this-

I am trying to look out but the air is grey departing-in-grey & we are writings- drawings upon the seas upon the cold winter air

of Essex beaches & *Londinium*... We have lived in the EVIL CENTURY the 20th century ... where evil won & our dead encircle the earth of the JOYOUS VENTURE - I have replaced some of them in this DOCUMENT !

ANDRE MALRAUX arrived *with a taxi man he can trust*

& it was quite unexpected at nearly 9.30 pm

PJPW is very flustered-he was working at history of natural history papers on the dining-room table that evening-children

in bed-a quiet comfortably warm September evening-

Peter seats Andre Malraux in the gold arm chair- I have never been able to see Malraux without preparation of a visit...

Orders given by NOBLE SCUM I am not to have a memory...

But Georges-Andre rises saying “ I wonder if I might sit on

that William Morris sofa Peter that Miss Rose Holder bought

you when you came here-this chair is very nice but it is small

& I am a big man... ” *A little look of a grim half a smile*

from him ...“ Perhaps I could sit next to *Greetah...Greta...*”

I was told to fetch some wine from the cellar & I brought it in

the bottles into the sitting-room where we drew the corks -

I give him a glass of homemade wine -

***a dry one of white rose petals to try* - then another of rhubarb -**

“ You made this *Greetah* ! ... it has a touch of ginger -

am I right ? I am amazed- it is so clear ... ” An old friend he has from the 1930s, Beryl very English , said 1972 at the renaissance evening The Pillar House

“Andre is really more English than French...he has lived over here for so many years ...

Victoria is got from her bed to play for him on the piano -

Peter must leave us - Peter wishes him to hear her play...

it is 9.30pm ...

Two or three minutes together...

ANDRE MALRAUX he holding my hands...

`Tell me - did you ever really care-for me - Yes I should have understood - I think you did - they opened our post ...

We had a little wedding as I have said - I was happy & I think so

were you Greetha Maureen...& we tried again...& I was very, YES

so very happy & so were you...I still cannot follow it...in some places... **There** (*he pats my hands*) **you**
must go on here...you have Victoria & he the little one - little Peter- to take care of...

I must go to my tomb in Gaul ” -

“ I went to see the Rec - **to the beach again - I always say it is the last visit - but I have to return...** to happiness

One day they may let you remember- again- when we were a family & had a holiday - it was 1937 -

you were 4 years & a half- we had a summer holiday- with a girl who had to die...too soon... ”

Victoria will at 14-15 years play a little Debussy very well/so sacred to he & I as much as Monteverdi. *Does he recall the music of 1945-47-yes- we have spoken all that 1957-1958-*

LIFE WE WERE DENIED IS HERE IN THIS DOCUMENT

...the reader will see we often escaped from the bloody slayers

of the GROTE HOMES children into some winters dawn & dusk walks ...

Andre Malraux & Greetha Ransom who meet July 1937 *in that little ancient house Old Road Clacton-on-sea...*

Len LIR has read his diaries-notes-documents-on tapes late 1970s- before he is killed by the long black tongues & foul mouths- the violent ugliness of IMPERIAL GREED who first destroyed his reputation & stopped him opening my memory with photographs & Ransom Weddell genealogies...

A LAST VISIT for two SOULS who have to be parted :

... PJPW called ANDRE MALRAUX... 'George' & 'fella' «you should have let me know you were coming... *its rather late* « as he opened The Pillar House great door with its portico & columns 1976 September & the unexpected

visit is announced as perhaps "THE LAST..." by the towering figure with a cane as if for support/

I break my foot last year & find it has slowed down that surge of dancing all over the house that has always been my custom/a child raised with Isadora Duncan & Mary Wymark known admired figures of natural dance - (I was moving too fast while typing this work !)

PJPW says to me GRW after some minutes of he speaking directing the visit upon his work BMNH & visits abroad & *that the COOK Voyages 200 years anniversary celebrations do not need him now so much...* he has come in
for the FISHES ... Peter Dance for the Mollusca ...

A turn to me and

"

you will not see George again...

I will go & wake Victoria - she has only just gone to sleep fellah...I want her to play the piano for him...

George

... he can hear how she is getting on...I will only be a minute...

you must hear her fellah ... "

When she was born 1968 there were gawkers-gossips about us saying she was **Malraux`s child...**No- I don`t do those sort of things...I keep my marriage vows old *fashioned though it has become*

...

perhaps unfortunately for Colonel George-Andre Malraux here

...

but then she would not be that Victoria-Augusta Mousie named after The 2nd

Legion of Ancient Rome who visited CAMULODUNUM Colonia Victricensis

...

/perhaps she would have been a boy looking like Berthe`s family !

PJPW, he was about three or four minutes...& then brought us coffee...

I did not want it...I do believe he has ORDERS to put this dope

in my drinks on such occasions TO REMOVE MY MEMORY...

***Peter... PJPW of the BM Natural History Museum DOES NOT UNDERSTAND THAT
MENGELE IS INSANE ...he believes he is
