

1937 July - the ARRIVAL - I began to make a sand banquet, but the better sand banquet was made the following day. It

is to give an appetite & suggestions for the following days meals .

I was making an

orange sou`fle

but called it `a souu-oofel`

& he laughed at me

...

I said to him ,

Georges-

ANDRE,

that it was in Granny Gordon

,

s cookery book .

I could read some things

...

but not read Sumerian yet ... Daddy & Lennie send postcards to each other ...

G R

&

L I R

I, G.R. have my too, too big summer straw school hat on ... **as grown-ups were strict about young children being NOT bareheaded in hot sun 1930s**

...

it was believed to be

harmful to the brain

...

It

slips down over my eyebrows if I move quickly

...

I felt a dumpy dwarf in the way of these tall beautiful persons from FAR AWAY ...

where

I cannot go again until my PASSPORT is won back AT LAW in Gross Britain

...

It was **STOLEN** on **ORDERS** my mother her friends/**FIENDS** ... An old Auntie Mary
*whom the young let drive their cars **FAST** ...*

& her daughter-in-law called **ANGELA** ...

& **LINDSAYBUGGARHS** who are after the moneys of Margarethe

GIRL OF THE SNOWS...

ballerina

He & Jo were strained in their behaviour to one another - **she near tears - & he, *the tall***

ANDRE,

toss

*ed his head, looked out to **SEA** & then around the beach & beach chalets ...*

then went for a trot along the seas edges but stopped to look at shells & seaweeds.

JOSETTE

had to be warned by Stella & Freddie again

...

` ...

" & what ever you do ...

you are not to row with him ...

that

,

s what Clara does ...

& he is still a **VERY** young man

"

!

Soon

Jo

was sent to bathe her feet along the water

,

s edge ...

as Andre

George

ANDRE` returned with a no expression face ...

HE WAS TOLD ...

` not to be impatient for she was a very young girl -

&

CLARA WAS CHASING THEM WITH A GUN

...

& would kill JO if she found her in PARIS ... people said so ...`

This would clear the LANDSHAFT of ANGST ... G R & L I R

**... (Len has been teaching me some German because FRENCH is spiteful says Aunt Mag for a first language
... & GREENLAND
speaks a lot of German tongue)**

... 1937 July - That first afternoon, & first week, ANDRE George ...

**he would nod his understanding, his agreement with the grown-ups, *Stella-stars* & Fred die-the Clacton Theatre ...
& look around the Holland beaches as if checking CLARA was not there
...
with a gun
...**

**They BEING CHASED BY A PERSON WITH A GUN ? This was probably not so very alarming to me - Lennie & I have had awesome adventures because of our heir-ship to our miracle of philanthropy GROTE HOMES & Ransom Estates ...
this Joyous Venture twice around the globe -**

**& we are always wary of LINDSAYBUGGARHS & their chums come visiting the crouching Scots dark grey granite GRAND on the Seafront by the Royal Hotel ...
*those***

monsters from the deep

,
as Annie-artist my great-aunt calls them ...

Some with knives & hypnotists needles ... & some SCREWBALLS are dangerously mad
from hearsay from VIENNA 1900s - the
psycho-analysts have done a lot of damage at cocktail parties ,
I have heard comments upon bad behaviour of these BRITISH NOBLES

`round the towns of the globe ` 1935/1936 ... **G R & L I R**

1937 July - **I decided I could help them both ... by bringing him , ANDRE, into A STATE OF GRACE**
as he was born with from his Guardian Angel ... He was supposed to be older than his lady love
but
JO
had more common sense perhaps ...

Two tall slender figures solemn of movements & expressionless faces were coming & going to the seas edges, as we three welcoming them to Clacton remained calm ... & the young pair were soothed -

The PLANS begin to be explained for their approval - some mention of outings they may like to make ... arrangements for their two weeks stay explained, *to melt the ice in their misunderstandings* -

This Andre ... *so tall he may not know what all of him is doing*

He a young man with bright fairy world eyes, stepped back on my orange soufel ... made of sand, small pretty shells & with the rare delicate fronds of the orange-red seaweed arranged upon it, & some of the green fronds that are more plentiful - I had been going about the beach amongst the other holidaymakers in their little groups & collecting this rare seaweed ... but told I might not go too far away - & I had to be called back two or three times

my father has told her some of the SCARES about having the heir , I suppose ...

**G R
&
L I R**

... & that the Lindsaybuggarhs want me killed is no secret ... they want anyone killed when it is a big FORTUNE they can **MA**

**KE
OFF
WITH**

**...
*they are dope-fiends***

**...
& have DISMISSED THE TREASURY ... & can threaten to do it again... if it does not believe THESE STRANGE imaginary PLACES on the MAP of the world they invent & pencil in ... to get them BIG DOUGH for supposed VISITS ...**

Len & I have these problems about us ...

G R

1937 July, Holland-on-Sea, after 4.30 pm : **I could see the delicate rare seaweed on the waterline - this orange soufel was the centre piece & to be the best sand dish I had ever made for this sand banquet for the French strangers - I BURST INTO TEARS - sobbed not meaning to**
-

... it did not help stop my misery that SheSHE had bought me a school Panama hat for a 16 years old for spite ... calling me Ape head ... & it kept slipping over my eyes

...
SHEshe
sometimes took NASTY photos of me ...
to take to her fiends in Noble London Town ...
THEY want to lock me up in a NUT HOUSE ... as they do with their old grandparents & unmarried aunts ... THEN THEY TAKE THEIR MONEYS ...

1970/71 - There are photographs of the 1937 Holiday , **& Unity & her family had them on display in the library in Berkshire, where they have rented a big house for a few years**
-

A roll of film in black-white had the negatives re-printed October 1937

...
Auntie Winnie & I took the negatives into Archie in Boots Chemists twice .
We are sending
extras to ANDRE & Josette
& keeping some for us in our photos album,
& some are for my grandparents at `Jerusalem` my father & Lennie to see ...

The negatives are now returned November 1937 to our Hostess, *mother of Unity who is 6 years older than me*

...

Her father is to die before Christmas

...

he did not recover that summer 1937,

in that lovely white painted Convalescence Home on the Clacton-Holland seafront ...

where we would go visit 3 times a day ... Our hostess going to help get him up & to have his breakfast ...

then we call again in the afternoon,

& then mid-evening after his supper ...

1970/71 - XMASTIDE, I heard the description of a photo I am in with ANDRE in a deckchair all long legs beside me ... I was nervous to go and see it on my own in their library , *I would be alone/Malraux has gone outside into the grounds ,* Unease, especially as PJPW had been to see the photo album with MALRAUX & others earlier, & now had just told me , *in a rather bullying fashion,* to

1937 SUMMER ` A sobbing 4 years old-`

he writes in his notebook ... ` He picked me up after studying the situation slowly ... &
seemed astonished at my grief, I suppose - then gazing &
gazing with those unusual
neither brown or green eyes at me bent to pick me up

with the lingering

`thus`

I was now very miserable & expressed to myself the thoughts

Perhaps

we can go as far as Greta Bridge & Greta Woods ...

Aunt Margarethe girl of the snows has a watercolour of one of these -

In the late February 1937 I **hath** been told by Unity's mother **Stella -stars ... " ... some friends may com`th from Paris for a rest in the summer ... but I do not know yet if it will happen ... but I think they are to come ... he needs a rest I hear ... I only have a certain amount of money, so we will be picnicking to save moneys**
& we can eat some meals here in my father`s house

I do not know if he will be well enough to join us ”

... She has a worried face, so that I think her father has been diagnosed with something serious

... 1937 MARCH - The Visitors are most likely to come, two friends who are very dear to her heart ... & she says that my father & Grandfather Frederick Charles will wish to meet him ... & we can all go to `Jerusalem` ... & perhaps visiting to MONTROSE ...
the old Ransom couple ... perhaps the American Ransom families will be over again ...

SO THE VISIT WILL HAPPEN ... in SUMMER - I will be asked out for some VISITS

because my father will be asked & perhaps Len ...

SO - I was very happy to plant a row of spring onions & radishes in March .

I will be pleased that summer to see

George

- *sometimes Andre* -

picking the radishes & spring onions for our sandwiches our salads -

Lettuces we hath planted in a box, & the gardener

not trusting us

also has raised them in boxes, & there are new Potatoes we helped plant in February & covered the ground with straw for late frosts .
