LIR/

1930s diaries LIR & others/ " THE RICHEST WOMAN IN THE WORLD "

... as vulgar IMPERIAL brutes Gross Britain & Scandinavia called her - Margareth Ransom Mrs THOMAS Immanuel GROTE

the most highly educated philanthropist they rob & refer to as an OLD ESKIMO ...

MARGARETH RANSOM GROTE Travelling :

“ Aunt Mag - she never made an entrance when she took a ship -

she often travelled as a Miss Miles - & she trained a girl to play the role of herself ... she this girl had a good education & was set to know all the books, plays, music of the times ... she could comment as we the family think...

as HUMANISTS

... it was very successful...

Aunt Mag would come along in the evenings & play the chaperon..

. they enjoyed this ...

The chaperon could then add her incredible education to the evenings,
delighting the company

” ...

“ ... or Aunt Margaret, she would be a Mrs Mevrick -

the Mevrick family had been friends of her parents - she could remember them... & Mrs Mevrick whom she liked, when she Margareth was a child - *It was understood on board she was not to be disturbed during the daytime* - & all her meals had to be brought to her cabin ”

...

“ ... But in the evening she would join the passengers & was found to be a delightful woman - although she was getting stout as she got older - more than plump after Tiggy died, then her son - she could dance like a girl & was very light on

her feet
her intellect on board -
travel with others -they
,

- Sometimes there would be someone of
or she might

d all decide to take the same boat - then she
,

d loosen up -
otherwise she used the daytime as working hours ”

...

“ She would not be accepted in a **BRITISH SALON** - that society of the Noble **IMPERIAL
monsters**

-

for Aunt Margareth had always an oriental look
from Greenland

...

although she is very beautiful as a child & a young woman -
& she never had a dried out face

...

as the English peaches & cream became -
they
,

d have parched lined faces by 40-50 ...
something
years of age ”

...

“ She never let it be known coming on board that she was a

Mrs Grote the rich woman - she never counted her money in that manner - **She knew where
every part of the Estate was - the smallest homestead - the tiny supportive umbrella -
the**

investments in big concerns or the family craftwork

-

& so did Grote Brokers

USA -

begun by the family of the father & uncle of TIGGY ...

**Aunt Margaretha would call upon our good old faithful Argentine solicitors who have taken care since 1830s when her father FRED RANSOM found them - th
ey called the JOYOUS VENTURE a delicate flower garden around the globe
... & it gave them such pleasure & they had such luck in their dealings with other firms abroad managing the parts of it ...
once it was understood how it ran the Estate DELIGHTED everyone**

...

it is the source,

the river,

that can never run dry ... ”

“ The Estate had been her JOYOUS VENTURE before she had her son at 41 years of age - her only child - he was with her until he was 15 years ... then went to be further educated in France... he had already travelled the world with his mother

-

His happy marriage gave her two grandchildren girl & boy - our cousin is a Priest at Rome

...

his sister was destroyed by JIM Jong

-

who savaged her reputation when she did not wish to marry him

& caused her death ”
