

10. VENICE Cathedral Saint Mark - 1973 Victoria-Augusta 5 years old - 3rd Classical Tour - the mother of her ancestor Great POUL GRONLANDER came here with her Greenland-French family who were Merchant Traders - she taught her son to sing 17th century Venetian Church music : his Chinese scholar ancestor came here - he is buried in Greenland in 1601 ... It is comforting to recall that the earlier families have visited - perhaps it makes sense of our short lives ... We can walk upon their footsteps and hopefully recall good advice ...
