

(1959 December) `1933 March - when my niece Greetha-*Greta* WAS BORN THE OLD LADY
MADE GRETA Frobisher Weddell Ransom heir
HEIR

-

She was a Miss Ransom-I think her name is Margaret-Margaretha-its all over there in the papers I have kept-

She married a man who set up orphanages about the world-I forget his name-but he got the rich people in each nation involved-they agreed with his ideas & put money in at the beginning-they could see it was no brain-child idea but civilizing-the children would go out at 18 years and help others-they were not to be revolutionaries or leaders-only live a decent life-everything in these orphanages was good quality I have heard people say-so the children would expect this for others when they went out to what work they chose-they were not to be domestic servants & factory workers-this was made clear-they would help others to a decent life-

I think they were Pacifists-my brother John

(Dr John Butler)

“ 1933 October - I went up there to ARRAN Is where she the Aunt to my niece *Greetha a Miss Margaret Ransom she was & married him in Greenland a German with HOMES for orphans*

...

she

had lived ARRAN but not all the time-she had to travel abroad-but they had come from Greenland & other countries of the world-

I heard on the Island he had been murdered at the beginning of the century-there-by

True Blues

who objected-

Mr Malone has been finding a lot of it in the papers I have kept but not had time to look at for a long while

-

I spoke to my niece 1948 after we were told the marriage to Catholic Andre Malraux had collapsed-

I felt she was taken in by her mother my cousin Teresa Gordon Ransom who had a friend called Angela
who got a position by default

-

I have kept a lot of papers-I did not know what was happening

-

”

“ I WROTE TO ANDRE & NEVER GOT A REPLY over near 20 YEARS - **asking him to see me or telephone- I was discreet-we are a family of some standing in Manchester-some educated above the Convent schools-& with my cousin Mayor in Manchester-others of worth in the community-my elder brother University-**

I felt he had to know of us as Mary Gordon my aunt had praised him so highly 1939/40 when she came to her sisters in Manchester awhile-perhaps he felt I was a budding writer wanting to take his time

...”

**Malone learned of her existence from Peggy Gordon wife of Harry that
December 1959**

when she & others were amazed at Harry

,

s niece

Greetha

having to buy a caravan put it near them & her mother quite nasty- clearly mad harassing them & telling these horrible tales about Greetah & Andre & the Ransom families-& pulling down Harry

,

s mother & her Irish baronetcy cousins

...

She recalled when

Treasa

& the noblemen on the seafront had jumped out on her before the War & called her names-

She had given Harry back his engagement ring & gone away-

`I have the explanation of all the brutality-murderous attacks-offensive words at you Andre- Miss

,

**Miss Butler Aunt Terry explained how she had tried tell her niece Greta just a half hour
ago but she seemed unable to follow her words- She now related to Arthur Malone the
brutality to the 3 months old Greta Ransom & how a dog heard a noise under the
floorboards of The Grange Arran**

- the

men had to come from the boat to get the dog-they heard a tiny whimper-

**The house was shut up the Nobles having departed 2 days previously- She had been
assured nobody would come until November to check for winter-it was then June 1933
she thought**

-

**the papers were all over in that pile & Arthur Malone was to go into them if he would like
too**

.

**Aunt Terry Butler went up to the Island October 1933 & sat on the shores & it was mild-
She told how she got the confidence of the Police & local people- they had wanted to
prosecute the lot of them-but the Earl of Lindsay-&**

others who lived in the big houses of Arran

had told her 2 sisters Misses Winifred & Bessie Butler

-

***& Miss Winnie Gordon their cousin who had received the first telephone message from
the POLICE Scotland to her parents home-***

that exposure of

this prank

would harm all the families -

especially his LINDSAY family Premier Earls with their DUTIES

protecting the CROWN

- they who were to take care of the heiress this little mixed-blood child

-see to her education of course-

perhaps she could inherit-something-

(Winston Churchill kicked them out of G. B. 1920s for murders/fraud Scotland-`a bloody nuisance since the planet began`
)

Miss Teresa Butler DID NOT KNOW her two sisters & Miss Win Gordon HAD NEVER TOLD the young father Fred Ransom **of his newborn daughter's abduction & intended murder by these distant relatives Earls of Lindsay & Crawford who claimed the old lady** 's

Estate

because she was an Eskimo-

He poor young clever man learned it years on-

`WAR HAD INTERVENED

-

This was the trouble-there were no connections post or telephone because of the War -& the woman Angela had been heard to hurl in her drink that the Estate belonged to her daughters-

They gathered, the families,

from insults that the failing British Empire would not allow an Eskimo & the father,

s mother

,

s branch of The INCA & South Americans to inherit anything about the world

,

Miss Butler had found herself isolated after the War ended-she & her Manchester families were anxious to have ANDRE MALRAUX get in touch with them...a postcard had been answered by another person-

Using Vatican sources they still did not get an answer to their pleas that he Andre come speak with them-

some actors had tried-Charlie Bronson a Catholic family too came over in 1948-they had all known the old lady a Miss Margaret RANSOM before her marriage

...

**In Manchester lowly though they were cunningly made to feel
as the great spending spree went on by TRUE BLUES as soon as the terrible WAR the
second such WAR had ended**

- she, Miss Butler felt it was a hoax-

it was fraud-

but her aunt Mary Gordon had so praised this young Frenchman & writer just come from the
terrible troubles of SPAIN
