**1937 Summer Clacton-on-Sea - One evening sitting in the garden at night I began a Tale of
the Cabbage Fairy-
she comes in November & skates upon the leaves of the dark green cabbages-their
hearts enclosed tightly from the frosts & bitter winds for they know we want them for the
winter dinners for
XMAS-tide
& to keep us all healthy & wise until the spring garden plants are back again-**

JOSETTE was sad & ANDRE tired I think- They have not yet had their DISCUSSION round the kitchen table with Unity's mother Freddie Theatre & me a listener if they wish but able to come & go from making this & that with what we hath collected about the landshaft-landscape- It is about what they are to do now they have decided they want to make a life a long life together... THEY ARE APPROVED OF ABOUT THE TOWN-

When we go about the town and out to something nice

JO is always treated as `his young lady-& when will they wed` & she looks happy-& other good people knowing there is an impediment show their approval of them AS A PAIR-

Josette went to bed & Andre & I were sitting there under the diamonds in the sky the other worlds-
**& I can remember I tried be cheerful going on with
Flower Fairies stories for wintertime-but feeling a bit little & silly & not sure if I should go
& sleep at Granny Gordon's house...**

ANDRE shakes his hair from his forehead then shakes it back again-I see him now 2008

AD- he reaches for some of the garden chairs as he rises his sea serpent movements that are graceful but swift- I feel lost & do not want to go to sleep at the bottom of their bed if they are unhappy.

"I shall go to bed" say'th hee-& lifts the white cup he brought out earlier for himself with tea-turns on the spot & says "I am going"

& a very high sloping figure he makes stretching from putting a chair back in place - & he goes !
I near tears at being left all night perhaps-I am quite alone under the

BLACK SKY- THE DIAMONDS

those other worlds scattered so thickly upon the blackness above everywhere I look-
I can see it as I write this-feel the emptiness of being alone-only my dead grandpas &
grandmas behind me stretching back into the sea mists of the shores of the world...It
was a very still night no sound of the sea pounding which is always comforting & I know
I am alive.

I was here in the vegetable garden quite alone at midnight & realised I had to expect to be alone & often it could not be avoided-perhaps I should creep out & go up to the Cemetery & sit beside Grandpa's grave & Auntie Kitty who died in 1929 she was very pretty with real curly hair- Being alone did bring unhappiness-but I must always be prepared for I am me with a million children a quarter million grownups to take care of with Lennie & we are in training a curriculum worked out by intelligent peoples of the globe-

Mr Pong & SHEshe sometimes have shut me under the stairs in the dark cupboard saying "NO SCHOOL FOR APES.." & I cannot go to school for she will say "no clothes" Mr Pong may come early morning when Daddy has left & they set about frying bacon for sandwiches & drinking brandy-other things- cleaning out all the Port bottles- Mr Pong tells her "you will not have satin & lace Teresa like Angela-unless you do as we say..."

SUDDENLY HAPPINESS sweeps my small coming 5 years body- ANDRE-Saint George st rode gracefully from the dark house noiselessly coming to me saying "you are coming to bed as well-we all have another day-it will soon be another day..."

& he said a few other things I cannot clearly remember but happiness descended from the vast black night above-I will not go to the Cemetery-perhaps they would like let me go with Granny Gordon on Sunday afternoon...

1957 November-December Andre Malraux will begin to give me back all this lost time
from his notebooks his memories-
night of being all alone under
1937 the

the black sky-then joy his return-I was placed kindly at the foot of their bed & we all had a good night's sleep the

SEA AIR coming in the window- another to-morrow happily together & I hear he went at 8 am for his newspapers-

1937 SUMMER *Discourses ANDRE-JOSETTE-Greetha*

We were UNDER THE GREAT BLACK SKY with DIAMONDS set in its vast spaces- & we have all agreed with discussions that WE ARE TO GO TO THE STARS...

(& I know from my family histories that Gertruid Great POUL's grand-daughter had eyes like “diamonds in the Black Northern skies” when FREDERICK RANSOM came sailing in with his brother JOHN RANSOM & began his courtship of a Maid in Eskimo clothes with her girlfriends... "The RANSOM BROTHERS late 1820s borrowed a skiff at Frederickstown & went to look at a new harbour site called JOHNSTOWN but it would not do-not deep enough-they sailed along & eyed the girls for it was time they had brides & got some good blood coming in-their mother a Miss Keiller had died at 32 years of age from an Apothecary insisting she could not go to church with this little lump on her neck-autopsy done by FR 19 years old who took his young mother's body to near Edinburgh in shawls & blankets & learned with the doctors-lump not at all going to her brain directed by the Devil- ignorant older family members her side persuaded to bow to pressure- Because of this he wrecked his ship channel-sat talking with young friend Gericault about wrecks...bought 3 paintings

All the above I am telling JOSETTE as I talk of her wedding to come & what will she have for her wedding gown ? & we will make to-day dinner-supper at home this eventide-for we keep an energetic week-

JOSETTE WILL MAKE A BROTH-as they do in her home-I inform a shop where we know them well- We went shopping in the Clacton pale morning sun not too hot for August at this hour & bought what she felt would make a nice taste a pleasing sight on the plate.

we were hidden by a well-educated man New York- he had a duck billed platypus in a glass case a very tall glass case with water- & a man came from the Zoo every day to tend the rare duck from Australia-which is to go home on a boat-

The Bridal house was all dark when we came back that night-Len & I walked backwards ran so softly along the waterfront to the men in the blue light kiosk & they got us a taxi- We were woken up the first morning in his nice big Apartment in the Sky by a Mr Paul Whiteman saying

"Goodmorning Savages

- welcome to Tittle Tattle Land

- there is a man coming to fry you for breakfast unless you get up & wash the pots &

pans-I am sorry we cannot roast you a pig or a Mustang- but my Manservant is here & he will get you a breakfast-

Mr PAUL WHITEMAN musician bandleader educated man of Boston New York-

Where is my magic baton ? It can take away bumps & bruises scratches & bites-& I have to conduct the Band with it-& keep them in tune... We will call on JEAN in the hospital & see if she would come and dance-we will play her favourite March-
Oh it's the 3 Cornered Hat

**Banks in the names of GROTE RANSOM WEDDELL
to pay their Embassy bills-**

Gross Britain High Class Diplomatic world : **It was said in the usual secret silence that it is all property of Earls of LINDSAYBUGGARHS & Crawford-□ & some belongs to Angela- "given her by an old Eskimo when she was a child..."**

This ugly stark RACISM is used by these Vagrants & outright thieves

-
& was not appreciated by intelligentzia in New York

-
where Margarethe Ransom Grote□ is known for her high intelligence her kindness-

She has created with Thomas Grote her husband the greatest piece of philanthropy the globe-A to Z. a river a source that can never run dry-
honesty is Tig's lore-law the Estate A-Z -

To well educated principled Americans these British opium ravished nobles were the `scum of the earth-' **An Empire falling-fallen not giving them the vast wealth to waste anymore-while they the dope-addicts jealousy interfered with all good husbandry A to Z the earth** : (& they stole my pretty frocks bought on 5th Avenue by Mrs Varese & others who are Margarethe's friends)

To JOSETTE - I TALK ABOUT LAST YEAR-1935/1936- **if she wants me to-it gives her ideas for stories & she is learning her English-or rather some Quaker from meeueh-□ when we travelled from Greenland to Tierra-del- Fuego calling at dear Thomas's Homes-they do like the family to keep popping in for the children are all our big family-**

1936 April `LIR Lennie says Mr Paul Whiteman was given a very good education by his father- he tells the grown-ups how his father then went off to the tropics to drink moonlight- Well he did feel it was a certain amount of dope-it was the age they were in-his band did not touch it-if anyone got into trouble they helped

It was felt the attack on us - Jean Len & me in Mexico was because these monsters of the deep were all on dope-

He would pass it around the town the ring-leaders were two women & Mr Pong & the Noble Earls-

who expect Len to call them `Uncle Lindsay`...

The hospital were keeping JEAN in until she could dance-

2 months- I had been in 5 days & recovered-they got the glass out of me- Len told them of the Report Salpetrie`re Hospital Paris (Nov-Dec 1935)- `nothing wrong with Aunt Margarethe's heir-a very strong heart

... (They are all coming up to Jacobsholmen Island & going round the HOMES to help when they have a holiday-I remember sitting on a high white bed a dismal window long a cold light-then they all came in-& I began to talk-Lennie translating...I HAVE A STRONG HEART-& am so many Races...)

Len said `Mr Whiteman was very angry when he got the hospital report that morning-he was going to have Senators tell the Embassy of the British to KEEP THEIR HANDS OFF OUR BANKS

& that was why we could not go & get what we needed from banks where Aunt Mag had arranged funds in our names for the travelling-in New York we were told we could only have two pounds a day-

but they thought we were children of these Monsters of the Deep-
they had been told so-

but like everybody else they could not get anything in writing from a falling Empire- hum !

`As we were travelling as Thomas did-with Jesus on one shoulder & LUCRETIUS on the other we needed some money

even though we have little planes & Uncle Alfred Charles RN & Grandpa use the launch-

Daddy went off in the hills Minas Geras & found a new orchid...G. R.

I am learning them -the Granny I like best is Hebithiyea Greek & Palestine- she is a poetess & that
young Ransom married her because he played a lute-but he had ships at sea
(11-12
th
century-they sent Xmas cards until 1929)
I now have an interest in what they had to eat as well as their bridal gowns-
& so I go on if Jo will have me so-

JO has some things to say about her home-

but she is happy letting me *bubble on a bit* for George-Andre will say 'it is her dreams-after she has have been listening to the grown-ups with her bedroom door open at night & once or twice I looked sad & might have shed a tear

but they are on holiday

Andre

George

has said that its things I have had read to me & then use my imagination- he says he used to imagine when he was a child- his grandmother Adriana-Adrienne used to read to him & tell him old tales...

1960- Andre Malraux learns Greta Ransom never had any imagination in her life-*only careful fact cold fact -*

1960 Lennie Diaries- tells ANDRE MALRAUX of the

British Noble Gangsters-*Figures from a Morgue* out to harm us all in New York March April 1936 (letters to Greta Ransom 1950s-stolen)

'do you remember Georgiano-he'd do anything clean your shoes, write an Affidavit-a Will- **he had no mother but a father who'd brought him up well-educated him-**

Georgiano

was interested in anything, everybody- he'd go in and out of Grote Homes solving questions, talking about Life, about all peoples- any occupation..

He said “ They are committing TREASON-but they cannot be caught-you must never go out at night-go places in a truck
never
an official car-say not your programme-eat not where they are ”

If they caught him talking with us he knew he was booking an early GRAVE- I was learning how serious is the problem of a penniless nation
at the top

-
taking by moonlight what others have got...”

(LIR 16 years New York-he saved our lives driving a truck over Mexican desert 2 days-we fell at the feet of Mrs

Albquerke

Monterrey-we found Jean was not dead- Diaries/& a friendship until death...)

1937 SUMMER Josette so tall slim sitting on the Holland-on-sea beach now known as JO 's Beach-

we can find her there-sitting with her notebooks taking a swim waiting for us to come to she- or collect her in the car-I see the calm water tide still going out-a grey-green glassy gentle swell-clean sand & shells- She says she has had her swim but Andre should go in-she has to forget THE WASTED BLOOD OF SPAIN- & sits with long legs stretched out a notebook on a board on her lap-she says she has been quite happy on her own &

smiles softly...

We two St George-Andre & *meeeh* may have been forced to take a nap- Unity's mother hath taken to explaining when we go out "they are all worn out

STAR WATCHING

-they are now up before dawn-' I politely try keep

JO

from feeling she has to join the

DAWN voyage

to the SEA-

George Colonel

Andre

has to have all the newspapers- Unity's mother says cheerfully 'they were out with the vegetables talking all night-

STAR WATCHING

We are known sometimes to yawn but not polite JO-& we did all of us take to sleeps in the afternoons if a late night was planned-

We have come to the beach from the Convalescence Home What a long time ago seems the first day-days when they were strangers & I remember hearing about 'Mary Butts-I went to see her before she died-I'm so glad I went-she was in a terrible state really-since he left- but still writing...Oh don't you know her work -I thought living in Paris you would have read some ANDRE- -its very delicate-she lived in Paris-was there when we came-then to Cornwall...always had a difficult life..."

Talk on

the beach Holland-on-sea first day they arrive-

A LATE LUNCHEON- I see ANDRE MALRAUX follow Unity's mother into the garden-the wireless is on all the time low or loud-he needs all the news broadcasts- A late lunch with meats & he may dash & get some more from the Coop if they decide there is not quite enough-he is picking the spring onions she & I have sown February-March-April-there's lettuce & radishes-he can choose-& tomatoes we have bought that morning at dawn in the town- Sometimes we buy him the unsalted kippers a pale deep yellow shade more expensive but he prefers them- & we may return before 6-00 pm to buy fishes from amongst the iced boxes if we eat at home- we usually do & they prefer this- He Andre Saint George

advises on my diet & I to him- Fruit in the morning a half orange or apple- then my Force Flakes or porridge-a half an egg for I cannot eat more...I share with somebody-Hovis brown bread & light salted butter or unsalted I like- I like salad things too as he & JO...

Wireless in the home is new-I was born two years after the BBC began its Home & Light programme-every household has the wireless on now-listening or just a pleasant background-perhaps at first it kept burglars away ! It is wonderful for music loving households-there is a Radio Times newspaper for every day's programmes-Annie artist listens to the Welsh programme-she learned it with a girl cousin-

That evening we are to all go out to a late supper at the best place on the Seafrot the town with an orchestra of 7-9 or even 10 players- the great windows will be folded back & the balcony & room open to the SEA the Pier & ships sequin lights far out- Before the meal he made a pillow for me from his jacket & put me under the table at his feet-I had had a good

HIGH TEA

& I agreed I could not eat a full meal-Later we dance they together...then all three he picking me up in one arm holding

Josette

& away we go- I did not ask-it was

Saint George

Andre

his idea-perhaps he thinks I am his Teddy bear-

Jo's long frock

dull brick a swirl & red straps cross over her back-she explains to my disappointed look she has to have something easy to pack for the travelling-Unity's mother is talking with some people on the curving stairs...

1945 We look at THE PLACE OF EXPENSE & HAPPINESS-

it was "A TREAT" from Unity's mother- our summer holiday 1937 only 8 years ago-

Colonel ANDRE & Greta Ransom-without Josette- We are standing outside the closed doors-windows of the best restaurant in town 1937- it's a cool June day- whisps of rain-I have come from school midday-I must be back for nearly 2pm to the St Clare's Convent the other direction towards Holland-on-sea set back a few houses from the seafront- I am 12 years since March - We are entered

upon A STATE OF DREAR from early SUMMER 1945-

We turn from The Clacton Pier the Seafront & ENTER AGAIN UPON THAT TIME 1937 the paving stones the same no noticeable change only places shut from 1939 the outbreak of War-

We are in raincoats

-mine navy blue bought by
a young soldier Jack Gordon-

Colonel Andre Widower

wears the Glenn Miller USA fawn raincoat-a romantic garment- the wearer can look like an Angel-Archangel of WAR-or Peace perhaps-

Colonel Andre-George his face now matured from War years & JO's death-his two younger brothers- still the trace of that boy-man of his mid-1930s upon his brow his solemn movements sometimes...

1970 The Pillar House in winter...Andre Malraux retired Minister of France... 'We made crosses from drift woods on the beach Peter- for my brothers- & our DEAD- We set them upon the outgoing tide- winter 1945 & 1946..."

ANDRE MALRAUX knows of JACK GORDON by 1960/1961...that he is Greta Ransom's dead brother of May 1945 & SHE

she

with

these-they

are under suspicion-

He had Stirling 60,000 thousand pounds from his father's aunts when he was made a Ward of Court in the mid-1920s aged 3 years-

then his father A MEDICAL NAVAL MAN was said to have FALLEN OVERBOARD-

THE MONEY'S had been spent by 1941 when JACK GORDON married the heir & niece of Mrs Augusta Jay of Birmingham/

their histories are recorded abroad-

Jack at 3 years of age was confined to a Marine Home for "biting people"

HIS FATHER DEAD ! Jack a WARD OF COURT ! With the money 60'000 pounds sterling from his great Aunts ...

It was my father Frederick John Ransom & his Commanding Officer got JACK GORDON out of this place 1938/9 - & he became A SOLDIER-you should say a Prayer for JACK at War Memorials

-& BANN the criminally insane of greed-
