

1937 Summer - AN AFTERNOON- we are on our own again-

Jo is to rest from last night & we will be out later at dark- but I may stay in this evening & sleep if Unity's mother is staying in after visiting her father- I can go with her to see him then return about 8 pm . ANDRE said we would go to the REC-he loves it- 1970 `every town should have one-a recreation ground like this Peter-now they have destroyed it-cut the cost of gardeners-grounds-men-made ugliness-

1973 ANDRE MALRAUX comes to tell *Greetha* The Pillar House Harwell & Peter of his *Last Visit to Clacton-on-Sea*

...

& he has already asked Victoria when he walks her around The Pillar House lawn from when she is 2 years if she has seen the

Rec

at Clacton where her mother took him when she was a little girl...?

" I have been my last visit to the REC-the seaside the beach at the end Holland-on-sea- the Rec is

not the same-

it makes my heart ache-it had such an important role in the town & local life-they have taken parts from it-"

ANDRE MALRAUX advances on 72 years of age-

1937 "THE GUARDIAN is chosen" we with happiness

over their visit ` as JEAN ballerina- James Weddell the SEA his grand-daughter writes to her son Dr John RAY Ransom-

before she is poisoned to death 1938 end of summer-

THE GUARDIAN IS CHOSEN for A to Z independent nations the world-& they have agreed- **Th e heirs they know & have pleased them for they are in the mould of Tiggy & Margarethe Ransom Grote-**

GREED MAGNIFIED in Gross Britain 1930s- Under cover of 2nd World War the GROTE HOMES children are slain-the disgusting theft following the rape of the lands by G.B. Gov & Crown & nobles swept forward -records-archives

-
“ **A Great Britain National Industry is destroying evidence of the Estate & the families are never to have existed- Plans are laid to make statements when all are dead-filthy accusations made against the character of the Ransom-Weddell-& other family lines...it is being said in secret meetings Whitehall that the British Crown had to destroy the worldwide Estate because IT COST THEM MONEY- Many of the families are dead before their time...`**

Witnesses RN-etc-

1973 ANDRE MALRAUX describes how he went to Josette's beach Holland-on-Sea & stayed alone 2 hours one morning-he had been helped by friends with small planes to escape the WATCH kept on him. Then he visited the Recreation Ground. He wore his grey hair wig & an old raincoat.

1937 they knew such happiness in this town-

1976 Doctor LIR- Len Ransom says `Andre could not stay away from that happiness-he came again three more times-he managed to get free

-
to come to Pillar House & Clacton-on-Sea-That last Visit- we all helped- was October 1976-

We all helped several times- took ANDRE to the beach- her beach-to those roads the places still intact- we drove him about- Left him alone when he asked- He wondered could you Greta ever remember how you & he all of your friends- could find her

JO

-at her beach with her swimming things her notebooks at that beach- If she was not in the house or had left a note then that's where she would be-
SUMMER 1937-`

`**1970s** ANDRE had nothing now-

no young men as she JO had given him- Pierre & Vincent-

I think nothing made sense at times for him- Andre-

They were taking every 3rd page he wrote from him -

AROUND him he could trust nobody ! **They were intent upon getting at moneys & the Estate of Aunt Mag & Tig that we had all recovered & put in order 1960 - Now we learned what had been happening -**

We tried to keep this from ANDRE but he came to hear-

1937 SUMMER Clacton-on-Sea

ANDRE *Saint George* & I- we have got my yacht the Fortuna from the Old Road little house a small yacht of greengage green yellow Plimsoll line-it needs some rigging. I explain we did not own the

Fortuna

but sometimes

took a share

. It is rather a shabby little yacht well used but we will sail it on the shallow bigger end of the boating lake not through the arched bridge to the deep end for great yachts & bigger children with grown-ups. We do not need to take the old pushchair but a basket a bag-our woolies tied round our waists-its not a hot afternoon & there might be a too fresh wind off the sea-We lock our little Old road house I hugging my little yacht- The sweet little house looks so drear without a fire soft lamps the wireless on- Daddy or a kind helper cooking-

I make some apologies to Andre-

aware he does not know what a vast interesting place it is when we are at home here with good people-humanists...How perhaps Lennie will suddenly come down if

SHEshe

is away at the Races.

We lock the door

& I try tell him of the happy times here for I do think he has heard too much of problems-

Unity's mother has had to say some things !

Across the Old Road & up the first road before the Quaker

Enclave

begins we go-

Andre

looking carefully either way on the Old Road which is the main road heading to the town-& I explain Road Drill to him as well-but do not risk his

wild Moon Eyes stare

by saying `in New York Lennie & I...In Santa Fe...in Frederickstown Greenland...`

He believes I have dreams as he did when he was my young years !

When the Anabaptists-Nonconformists-the Quakers came & began their white wooden buildings they were tucked under the Rise from this Old Road which is sloping up gently to the flat cliff lands leading to the Holland Cliffs- & ahead from this Old Road they could walk to the seashores a few buildings-a Packet Boat came in- but no town of Clacton yet. The farms hamlets spreading over towards Saint Osyth Priory had fields in

between.

I tell him she was a Princess Osyth & did not wish to marry! So her father built her a Convent with a Church. I say that must be nice to have a Convent but I have a lot to do when I am grown & I think I want to marry someone like POUL who was 6 feet & 5 inches tall- ANDRE becoming *Saint* George nods in understanding.

1970 I hear ANDRE MALRAUX telling Peter J.P.Whitehead The Pillar House Harwell Village-

**'Paul of Tarsus was all I could think she mean't- there was Thomas who went round the world with Jesus & Lucretius- She was 4 years- 6-7 months- She was in love with POUL-she gave me the spelling-
(Yes there is a van that has Poulsen on in Essex-)**

**I did not connect a real island in the SNOW...it was bombed 1960 to stop us all- the families- opening it- I would as Legal Guardian have been able to get immediate help to defend it !
He was told arrogantly by Denmark 'he could rent it' They began denying the Charters-1770.` says Andre Malraux**

Meaning - Dr Len I. RANSOM heir & co-heir to Greta Ransom- Len tackled Noble CROWS-Vagrants-scavengers-on their disgusting debauchery 1950s-60s on our Island-& not letting the de Salle Poulsen girls go free-of keeping them out of our great warm house ! -PJPW insists Andre Malraux does not use the names of Greta Ransom`s family- ANDRE MALRAUX wishes to give me my memory back-photographs-notebooks-visits with the family members still alive ! He is told I am not to have a memory back-only carefully some things if it is possible-

Peter has monstrous creatures about him from December 1967 ! Some well dressed thugs his Class (see Debrett-Burkes Peerage) outside BM Natural History Museum in the dark have

promised him death-he can't find out who is RUNNING THEM !

`1960 the criminally insane Of Scandinavia-Gross Britain began denying the Charters had any relevance-

Denmark & The Lindsay Earls owned the Island !` They are all dirty liars-high on DOPES-

1961 I MALRAUX as a Minister of FRANCE came to London to represent General de Gaulle
President of

France-

A greeting by Nobles at the top was to occur- I was side-stepped by an ugly woman's son-in-law- he meant to insult me- My two boys dead that year- because of this violent robbery of a woman of high erudition-

She in 1937 October appointed me GUARDIAN HER ESTATE-

She held USA citizenship from her marriage many years ago- These men & women your countrymen-some from Scandinavia- are on DOPE-one dope in particular which has them believe they are divine-they grow it in Scotland-

I have seen it growing-we were taken to look by a family who did not agree with this crop`

This man -his Court... knew that I & the President of France were having our Post/mail stolen

in his name- He was used to insulting the legal owners of this Estate- & their vast ancestry- RACISM had been used to justify the FRAUD-theft... He was using your Nation to commit Fraud-he did not begin it-he was too young-

but often he had the opportunity to halt it

- His dope consumption is too high-

he had little education- as those about him quite often-`

THEY KNEW PETER THAT MY GENERAL & I DID NOT HAVE THE PAPERS THE WILLS SENT TO US...**violence went on from them- They had used their enormous kudos to employ criminals- & others from Naval Intelligence-** to deceive & remove documents- &

continue their obscene lies about the Properties-for orphans-Homes-you do not know these things ? I am surprised...`

The matter is they should never have known the Estate- Summer 1960 I was found very ill in Rome-it had been done with dope-things in food & drink-old game...they had been taking the mail sent to her young father since 1933- His father had his own set of documents-he had his mail delivered from the various Embassies...
