

`du Cann & creeps-they were promising her a good marriage ! When they had got what they wanted-Malaya she was told a marriage with this older guy was on if she changed her RELIGION- No-it was all lies... they had used her to keep Teresa their spy free- no Nut House to help-more trouble for all of us-I think now she Portia of the Courts

was in danger from the Law- held the carrot over her donkey nose... Oh SHE ~they were giving her Racing Credit...she would continue to get her FIVE THOUSAND POUNDS Racing CREDIT a YEAR to see we all did nothing about the Estate-

I am the youngest of them-I did not know what went on before the war down here...& then Aunt Mary was dead before I got out of the ATS...terrible blow for all of them-her sisters...my Mam is Teresa her eldest sister...

They were not giving TGR the big mansion moneys invitations they had promised-back in 1932 when she got the marriage to young Fred...they lost their parents too early-see everybody in Heaven was all you could think...` (Julie Butler b 1920 Manchester daughter Teresa Williams & Bill Butler - speaking to PJPW Clacton-on-Sea Bowley Drive 1983 & he not wanting Greta to hear too much-but she would rather I did...)

1946/47 Marital Court Records were also sent to the Vatican & showed the tragic times the families Gordon-Ransom had had to live in because of the greed of British Noble Imperialism-` young Paccelli ` had experience of the Imperial Greed (as Germany did !)
from late 1920s over the GROTE HOMES- half of them being in Roman Catholic nations- approved & then welcomed very much by VATICAN from 1870- & the settlements welfare facilities growing around them-especially South America...

The Marital Court RECORDS -showed the state of mental health mother Teresa E. Gordon
som the woman being Ran

kept free

in the land of

Great

Britain by Angela & Earls of Lindsay & ILK- She would, the Court instructed, be placed in a Mental Hospital by her sister Miss Winifred Gordon-in charge of the arrangements...

People now heard Win was keeping TGR out until after the wedding in April 1947... & then the Hospital would decide where she should be transferred- it was not wanted that her bastard sons & her families suffer her *DOWNFALL...*

1946 Sept -1947 February- THE TRUTH NEVER TOLD TO ANDRE MALRAUX is that in September 1946 the sister 4 years younger Miss Winifred Mary Gordon/in charge of Court Proceedings for Gordon Family

-

was entrusted with transferring her sister to The Mental Hospital

-

Miss Gordon `Child of Mary League` & ex-ATS the Court of good Clacton & District persons did not doubt the

spinster

would make the arrangements that Teresa Gordon Ransom her insane sister who had killed their mother be accepted at the Hospital-end of September -early October 1946-

BUT the bastard Ed du Cann & legal advisors told Miss Gordon it would not do his career any good if his mother

“such a jolly fun loving person”

was locked up- AND THE COURT HAD

NO AUTHORITY

AT ALL-to lock his mother up- He-he- he- had a Degree OXFORD

There is still severe food rationing for Britain & this will have Esther-Estelle saying□□ `&
because of the shortage of food I have cooked this
cabbage yellow-green like a spring cabbage...

it looks so nice & carrots...& your Uncle Potter has seen to the Chicken in the oven & the
potatoes to help me- he cooks a chicken very well

- *his mother taught him she was half French or is it a quarter-they her sister & she were
the Misses Romilly or is it Neville before they married-*

& dessert in this beautiful bowl...There is a good white-yellow wine from the Cellar of an old man your Uncle's father knows- & your Uncle has some very good Whiskey-the men can have that together while we make coffee-perhaps they want to talk...`

Perhaps she is apologising for not producing something French as she has experience of pre-war in London Town when Uncle Edgar Gordon takes her to a fashionable place...?

Although I am in awe of Colonel Andre in his grown up role I am not in awe of *Saint George*

Andre Totem Pole who can sing higher than me in Choir- go boy soprano !

The food was fantastic- Richard & Jenny & I ate a good Sunday dinner...` *I am the engaged young woman cousin in Esther's high heels now & they children`*

-` I took such a gulp at the wine as it was sharp sweet & I lack vitamin C...&

Colonel ANDRE-George

took it off me rather quickly saying

`no alcohol before you are 17- I will teach you about it then- I know children take it with meals in France but I think I do not agree with the custom...`

I was very intrigued with the golden glow like PRIMROSES in a spring wood out at
Wheeley Village- where Win is

buying us a Bluebell Wood for our wedding present-

& the wine it did taste like very sharp lemonade` - I got the glass back filled by Uncle

A drawing published in a Paris newspaper had Malraux slipping out to night highlife having tucked a schoolgirl up in her cradle-it had no comment...

Ellen Mary who teaches poetry somewhere about the Great Lakes said ' have you read many of the philosophers' ?

I said only Confucius & Bacon at the Convent School-but there were all sorts in our library my Father had- she is in shock for her husband is dead in a USA submarine-she has two children under 10 years... I do know I must go along with the learning of my age group-

It is agreed thank goodness that Esther & Andre's sister-in-law can do all that- the public gatherings & stages of the modern world- shaking hands sometimes with nasties- I do not know I made a speech of thanks in the Argentine for the Green Train-a real one-before I was yet 3 years...Len holding the collar of my frock ready to tug it if I made a mistake...& that I was regarded as `a natural`...That education so carefully begun based on the GROTE education system stopped & I suffered physical violence since October 1939 when the Ransom family went away to War- & my Ransom grandparents had been murdered for the Estate- I have no memory at all of Frederick Charles & Jean ballerina & the sweet home `Jerusalem` or of Len & our travels 8 months or even Len flying us up to Greenland

THE DEAD JOSETTE WAS SPOKEN OF- regrets they had not met her -

Uncle Potter says `that SUMMER 1937- the town so much more than a holiday spot...good people here Andre- pleasant in winter-`

The Focus then became she whom he ANDRE Guardian to Greta had come back to talk with- the only just dead MARY GORDON June 1944-Esther's mother- ...

a mention of sister Kitty dead 1929

- `Andre took the roses for me...he helped me cut them... to Kit's grave for her birthday last summer 1946` says Aunt Esther...

(1927 Mrs Guy Vansittart legal Catholic Wedding in a Tree Cathedral-he Guy comes to speak with Harold W. POULTER, Hollytrees Mansion Museum, Colchester spring 1954)

`Greta's Grandpa Gordon such a pity- just dead when you & JOSETTE came that summer 1937-
the churchyard such a lovely place-a view of the sea`

Esther says ☐ `I shall like being buried there- with everyone`

The talk gathers upon Josette- the matter has been discussed before we come for this
`delicate engagement lunch` & the `early wedding` which
Andre says `it is believed will SUIT US BOTH...`

Esther has said in the kitchen...☐ `your father Greta...he always reminded me of a Young Teutonic Knight-☐ I stayed at `Jerusalem`-☐ there was an accident on the line-☐ I could not get back by train- a wonderful old man- he told me ALL THE HISTORY OF THE RANSOM LINE- they were at SEA...`☐ I heard this - Esther is known to have a good memory...but it had no meaning at all...I felt the words slip away-☐ Andre did not hear this-☐ I think I was terrified that I did not have a memory ~☐ Terrified that I might be as Treasa Mad mother Kali says daft-☐ `PERHAPS I WAS NOT ALL THERE`☐☐ It slipped away amongst the delicate matter of the dead-☐ Uncle Potter was a bit on edge when we arrived because the Winnlemanns had not been asked-☐ `How am I to talk to a leading intellectual Esther ~`☐ Perhaps we should have asked them- I think they had gone off to a Sunday dinner somewhere so there was no chance of collecting them- `Josette- a pretty name Andre...

`so many people in the Town had said☐☐ what a lovely tall young lady she was...`

I descend into nerves as the matter of the missing Winnlemanns is raised again- I am told by Andre Malraux in his Colonel manner he expected Mr & Mrs Winnlemann here-
Really the matter is he can be a bit shy...I have noticed things & so have our Convent School Class

-

Esther is asked again... Uncle Potter has been grumbling to me
...`I expected that old Winnlemann here
Greetah

- I'm not an intellectual- I will do my best-DAMN ! Win was supposed to have fixed all this...`

I think probably Colonel Andre would rather we go & play Neolithic families on the beach

with a sandwich...

(I think Miss Win was told not to let Professor Winnlemann talk to the Potters because something would be said about no worries over money-plenty there to buy a Manor House etc-& Andre would have no need to worry over money for his French families- & Winnlemann would pick up that the inheritance was not from the Misses Williams sisters of Greta's grandmother...but that it had to be vast as it was global- it could be picked up swiftly by him once he began to ask about my father & the rest of the family - Andre is not taught to think so- he is still a young man...he is very polite...)

I have sensed a certain stress in Colonel Andre of Gaul- I act in a practical fashion Esther's high heels helping me enormously- I talk of the lunch & the house the children- the cricket Town matches can be watched from the garden-The wine has come from old friend-he put a cellar down always before the War-so it is old- he always got advise from Colchester- I said it was really still like Wartime & I expect Esther worried there might not be enough food-we are feeding the dear Germans as Auntie Win says...` *(the shop we went into 1937 with Josette & Unity's mother...Andre will have a memory here but not me)*
