

1937 A SUMMER Rain day with Josette Clacton-on-Sea-

& I tell ANDRE & JO summer 1937 of our histories if an honest remark is required to
something we are engaged upon- **ANDRE- Saint**
George **he**
thinks I dream- I have been told to remember that they have
COME FROM SPAIN
& need a good rest-time to themselves to talk- But Josette is happy for me to take him
out & give her time to write-
She knows when he is impatient I will say to him `YOU ARE LOSING YOUR GRACE- that
you were born with-

a gift from your Guardian Angel ` He may say `SAY it again-if you DARE` - putting me on
a high place or he may
nod
in agreement & even ask something of
meeh...

But JOSETTE one afternoon a wet day had me build for her THE ISLAND IN THE SNOW i
n Unity's grandpa's bricks from his childhood

Josette was making notes she writes headlines sub-head lines across the page- she
thought she might do a story

...

he

Saint George Andre

is

`round the town ` talking his head off but listening also-

he doth get some learning

from all the people he now knows & calls friends.

We girls do not keep him tied to our apron strings.

I thought I might make some more fairy cakes

but JO

says

Andre will be calling at the Co-op & he likes to choose cakes & bring them back for a surprise to

us...

he may have been taught this when he was a big child-

So I began to build & speak on the Island that is really our home in Greenland - THE ETERNAL STAIRCASE to the harbour-

where every child born on the Island has its name CARVED...

Josette can do marvellous paper work- she makes hats & things anything you want-she made a ship & smaller ships that come to the PLAY Season Jacopsholmen in the SNOW-

I tell her the first Season was to be for 6 weeks but it lasted Seven months & they had to make a Theatre outside as well for the Northern Lights...that is Fred & the Greenlanders-he is my grandpa's grandpa-they heated the seats-they invent everything up there if it is needed- I think he did it like the Romans did- but we do have two little oil wells in Kentucky I think- we saved the lives of two tiny Oil worker boys & some more & brought them up for a good education-

The 5 Romney boys were very pleased with themselves after 2 years schooling -they were such a trial until Fred sailed them down to New York showed them good houses kind people- then he threw them out on the harbour wall &

said `now you can see what it is like when you do not have our education`

Next day they said they would learn everything in the school-

but it was finding Tomato ketchup that won their hearts-

so barrels & barrels of it had to come up all the time to The Holm- they'd have ham & eggs at weekends-

in the restaurant in the sky

-

Well- they are his experimental buildings for the first Colleges of the University of POUL-GR to Josette Summer 1937

...

(Ask Alan Villiers/Cousteau/Science Museum South Kensington-

records stolen 1950s & 1967 for

Noble Scum-

loss of lives goes on)

Oh the Romney boys 1850- Fred got permission from Queen Victoria to have 5 of them at first-he took them off in the `Mary Rose` from the Thames ... 0
ne became a Norwegian man of letters...
my name is also from his grand-daughter Daddy met her in Berlin 1929 but she was pushed under a tram-he has a tiny tattoo Greta & her telephone number on his arm Berlin but now it makes him sad big tears come in his eyes-it is nasty people who want our heimat in the SNOWS...
one Romney boy is a Senator in USA- & then another said `I think I will be one too` but one went to Spain to grow grapes & everybody could sail in... They send Aunt Margarethe Christmas cards- well they are not all alive but they have children & grandchildren & great grandchildren like me...`

Margarethe said "oh the learning in our school on the Island it was too much -it was too much- but my father had to keep us quiet in winter- really it was because we thought we were having
GREENLAND

Independence...we had to prove we could run our nation....`
She said the boys did not mind all the learning ! Not at all ! Her father would thankfully take her with him when he was going down to South America to his forests for the right kind of wood- she did not
PLAY UP
on the ship as the boys tended to do... but did her lessons & enjoyed the places they stopped off in...one Embassy began to teach her South American etiquette & had lovely clothes made for her...she was 11 years...everybody was so kind & interesting so she was glad she knew other languages & this did help...`but Oh the learning was too too much perhaps for a girl...`
(She was already sought in matrimony !)

MRG 1936/1937...` Oh everyone spoke Greenlandic because it was Great Poul's language Mummy's grandfather- h
e would write the Pope in 4 languages -the Pope sent him a horse & wonders of the world-nutmegs & things that Poul asked for-`
Margarethe is my girl of the snows-
she learned German in the kitchen from her mother & the cousins they could all cook lovely things
I have asked & Daddy has made a list for Len & I are making books & I collect their wedding frocks & the food they had for the heimat the homestead when they were not sailing about-one Granny Ransom used to shout `stop the Ship I want a stew` but we think she was having a babe
-

but they had to learn 5 languages in our The `Holm school-& ancient tongues-
but Daddy & Lennie write & speak Sumerian
...Tutors came for 6 months because the summers are quite fine but most of them liked
to stay 2 years...

& you can go shopping at Kristensharb or Frederickstown I suppose

-

TIG learned 19 languages quickly but he was not very good at German his native tongue
but they gave him his degree

...He learned many more languages... & then everyone said `Oh shut up Tig- you are
boasting...` he went on & learned even the Marsh Arabs speech-
but then he was going round the Globe with Jesus on one shoulder & LUCRETIUS on the
other

-

`

GR Summer 1937...dwelling with MANS HOPE...

`Len calls Margarethe 'Aunt Mag' & dear Thomas TIG but I would not dare ! **She learned
Arabian from their ladies- otherwise she sat like a dollie Greetah... all the afternoons
while Tiggy & everyone talked away-
the ladies said `we want to know too what they are gassing about- & you can then go in-
& tell us**

-... said the Arabic ladies who were very clever at everything when they came visiting
GROTE HOMES & sat in the Class awhile....`

Daddy & Lennie send one another postcards in
Sumerian

- Len is good but Daddy often has to ring him up & ask-
the post comes to the Dr Barnardo's Home over the road with our letters & they collect
the foreign stamps...we all have other names...

I am Coleen Yardstick in The Americas or we get our Banks stolen from- & I hath a secret
number for taking care of my peoples & my lands

-

Old-young

Varese helps us & other people in New York-

they are all ladies & gentlemen they are...

like Paul Whiteman-

his band have to sleep in the hay you know...because they work so late at night...`

GR-

`Fred put up the experiment buildings in the snows for the Colleges & it worked-they had
an electric shovel the first in the globe- he invented a very clever roof from the ships we
have had for ages- but all the Island young people went up at night to Woo- sweethearts
& all that-KISSING-

SO

-

HE SAID I WILL TURN THIS INTO THE HAM & EGGS

restaurant in the sky

-

Gertruid said well we are not climbing up as the young people do

-□ so he put a grand staircase in- so when they have drank some beer on Sundays they will not fall down-

we make a nice light beer pale as lemon juice

just for the Island in the SNOW...`

`Oh sometimes JO... the Greenland ladies wear lovely frocks- Fred built them a sewing room because they like to copy the French fashions & were trekking about in the dark in the snow to show one another- Once Gertruid disappeared before lunch- & he said

`where is your mother`

& they said

`Oh she has gone to Austria to show off her summer clothes- there was a boat going so she & her cousin left at 9 o'clock this morn you were not here

...`

Fred raced after them in the skiff-Oh he has to always give them instructions & know what they are going to do for they are so popular & exotic...Gertruid is in the paintings...`

GR Summer 1937

`The Theatre in the snows- JoJoh... - I saw it & it is gold inside-everyone on the Island helped gild -Lennie opened the doors & I saw it glowing all gold & it has a tier- Margarethe said they went to a little theatre in Germany & her father said□ `we are going to do that to our theatre` -

perhaps it was

Rienzi-

so they called the lovely dog that kept Tiggy in order Rienzi-there is a photograph of him & there is a fine marble piece on the other Island Scotland-

We had to leave our HEIMAT ISLAND last year- we had come on a□ big petrol boat & we had to get back to the 3 Seaplanes at Kristenshab- MONSTERS OF THE DEEP are making trouble on the Island & lots of our cousins were missing in their warm houses- I have

heard that Mr Pong is a trouble maker as well- he speaks Chinese

-

Harry says he is a nasty little imp-but he plays Puck-Faun to old women-& Angela-at the Races

-

`

they trundle on & then all the young people like Uncle Harry leave- they then stick pins & needles in the horses-`

1937 SUMMER with Andre & Josette -

Then I was asked to make the great house from bricks & things- where grandpa 2-times back Fred Ransom

puts up bunk beds to the ceilings for all the children coming from abroad for the plays

-

Shakespeare & in other languages too-the clothes are made in France & in Rome

- the island does have summer & sometimes the wondrous flowers that have been there since the Vikings- we the Ransoms used to sail up there-

there is a

Greenland Eskimo granny way way back

-

but some of them were very tall like great Poul 6 feet 5 inches- Margaret married him & her father brought her wedding rings from France- in his ship

-they come from Carlisle-

POUL (

Poul Gronlander)

swum out & rescued the Italian ship-he brought them all in along a line-it was a half mile out-

only POUL could do it

...

So Aunt Mag goes to luncheon with the Popes- Len says they call her in to tell them of the world- now our dear Thomas is dead- but we have his work to carry on- Thomas used to go round & round the world with Lucretius on one shoulder & Jesus on the other- but the Emperor of Japan said `Tig has no religion- BUT THANK GOODNESS HE HAS ALL OF OURS...`

He said this to his son- Uncle Liam Captain Ransom sails in when there is an emergency at our islands that were that Granny's dowry- she is Japanese & Lennie calls her
The Lady Shampoo

-
Uncle Liam takes one of his tall ships-they play a game of draughts & have a cup of tea- TIMES ARE BAD they both say & Hirohito says
'I can do nothing-except keep my head down & go to my work-
ITS WORLD GREED`-

`The ships are The Scalley Wag which you have to ask where does it want to go- he may have sold The Egyptian- he has given one to Norway but they have changed its name now it is going to be a Museum- he wants to always keep The Mary Anne- named after his mother` -

1937 *wet afternoon*- Clacton- SO I GO ON WITH WHAT IS REALITY- what is truth not fiction- for this is our work-

looking after our peoples & our lands- JO understood the last part but ANDRE has told her I have my dreams from sleeping with my door open-
Another day with Andre we have gone to get my
STAR CHART
-back of the door the great kitchen of the little Old Road house-
Uncle LIAM Captain Ransom gave it to me for
Xmas
1936/7

`In the Play Margarethe-girl-of-the Snows is Imogen but the boys like the history plays & Tiggy says 'its not fair ! I have to learn & learn ! Greenlanders learn so fast ! They only have the snow to look at ! That's what it is ' (THOMAS GROTE founder of the HOMES)

The GREAT DOG RIENZI a half-breed keeps Tiggy Thomas in the playground- Fred & Gertruid lost their
First Born
Frederick with his Greenlander cousins down a crevass- they were 6-7-8 years...
We have Masses said !

Tiggy is threatened with being sailed again to stay with The Kant relatives if he does not stay in the Playground in the snow-

Oh-Oh- Tiggy pleads ~`they put me to die in a corner like a sick kitten” Tiggy has ringworm from speaking to the Animals in the Boston Zoo when he was 10 & 11 years ! He got the SMELL of them on him-

It was in a newspaper in

1851/2

- then Thomas-Tig gave performances a certain time in the ZOO-Boston-once a week!

He would talk to the Eagle-

this was very popular!

There are drawings of him & photographs at ‘Jerusalem’ & with the Grote family in New York...`

His father is our Brokers- New York-it is their firm- an old early building just off Wall Street- but now its bigger...`

1935 October- LENNIE FLEW THE SEAPLANE PLANES TO West GREENLAND - then we escaped with help from the Army Canada -

just before the DAWN-

they stopped

MONSTERS FROM THE DEEP

stealing our 3 seaplanes-

We Daddy Grandpa & Lennie & me were got to New York

- I had a

floral bath

on a Liner in the harbour as Uncle Alfred Charles Ransom knew the Captain- the hospital said it would be wise & it was one of the best-

they are all concerned at the hospital with the attacks on me that summer by Earls

Lindsaybuggarhs & scum-

I shall never have to go back to Britain again to be harmed anymore...because of our RANSOM families sailing down the centuries...

I am now a boy 6 days of the week & feel strong...`

Uncle Alfi-Charles RN is going with us to the Magellan waterway (1936-January) where Jean & her sister have two islands from Grandpa the INCA-

Islands of the Sun & Moon

- we went to the Island of the Sun which Jean ballerina calls 'my nugget of gold' & they had her dance the Firebird the Fairy Queen & for Daddy she always dances the Dying Swan- he saw PAVLOVA dance it in Berlin

-
(& this is his little mother & Lennie's too-my grandmother...)

JEAN's Island of the Sun - we went in JANUARY 1936-

...it stretches up to heaven with all colours of fruits & vegetables- that night they came her cousins- Aztecs & INCA & a feast was made- they came patter-patter in soft shoes & by punts in the gloaming along the waterways overhung with trees- We awoke after our 2 days trek- They have clothes like Cousin Clarke (jeans & coloured shirts)- little bead embroidered caps- soft voices- some English- 'will she dance- what will she dance - the Firebird ?

'They are all coming in two days some three- & Cousin Clarke has made a new film called San Francisco- he has just left with friends- there are others in Hollywood who are from our lands OUR HOMES & our peoples- 'but they keep quiet because of the MONSTERS OF THE DEEP' - archives/San Julian/others

We were due at Hollywood where uncle MacMurray has the crew stay on a week & we are to make a film on the Tiggy Homes children- the introduction

parts are all filmed-

en says he will strangle me with my bib if I say '

Lindsaybuggarhs'

to anyone- but they do all know about these monsters from the deep

-

Fred MacMurray Broker-filmstar-is off a Ransom girl line-a lot of film footage has been made of the RANSOM histories-when they have time they all film away...'

Uncle MacMurray & his wife have a son John- he went to a party as our ancestor FRED RANSOM NO CLOTHES-*they were not pleased !* Uncle MacMurray may have thought it funny- Cousin John he also got stuck in a fancy dress party headpiece-

he is Frankenstein

- Uncle MacMurray got told off by the Police for cousin John had to drive to the hospital to get it off- he is not old enough

-
(1950s-he was pushed down a mine shaft where he was a Mining engineer-
Len says it was done by them- he is in a wheelchair- he is Len's best friend & cousin-
he died 15 years later- John MacMurray-
the Imperial monsters of the Morgue want to burn his DNA-)

Nota bene: 17th century -Fred RANSOM No Clothes had a Dispute with his father & said
'until you believe me I will not wear clothes`-
he had nice friends with a big house-they were all Ana-Baptists I think-he lived in a tree a
year but then they said will you wear a monk's robe & have this cottage at least in the
winters` -The family says `
DO NOT DO THIS UNLESS YOU ARE NICELY RICH`
-FRED NO CLOTHES he had ships at sea- he read lots of books for 10 years then married
a Devon girl & they had 5 children- Nobody minded him at the luncheon table because he
was so interesting & covered his
private parts
with his napkin & he grew his hair like John the Baptist-
-RANSOM men are not often eccentric- they all sail the seas & invent things too- it was
unusual to marry a girl of Britain- we must have lost a bit of our exotica...`
Summer 1937 this is our world-our life-
I had an opportunity to talk on to JOSETTE- as the above` ...

1937 Summer - By High Tea Time ANDRE *Saint George* would have returned- *but he
doth know we do not keep him on our apron strings*

-
'Bless him`
he loves popping off in the Town to all the people he calls 'my friends'
He says he learns a lot-
the Co-op manager the cinema owner & his son of the Kinema-the library some of the
shops-
He often goes to see Mary Gordon asking her for a time he may call. They talk about
LIFE he says
. JO will sometimes walk along if he has gone in an evening. I sometimes catch up
on sleep.
We may be going to The Dance at 10 pm....
G R

1938- in her Will Jean Weddell Ransom left the Island of the Sun- her nugget of gold
island to Lennie & Greta- her youngest son & her grand-daughter - The disgusting
Gross Britain Gov & Crown

said she JEAN WEDDELL grand-daughter of JAMES WEDDELL The sub-arctic SEA had never existed- never had been a house called `Jerusalem` Deptford- `they had all PLANS re-drawn- hee haw-hee haw -□ say more & we will attack you- hang IVY not just wave a halter at her in the street- FJR had permission with help of a well known MP to put the house back 1948/49 then the MP was made ill & nothing further could proceed- London County Council said the Earls of Lindsay said the house never existed...`

1948 Jean's Island...`Teresa E. Gordon Ransom sold it□ "for the price of a 2 pence British stamp" as directed by Earl Lindsay ay 14 to a Norwegian man who took his family 2 years holidays-□ then he was evicted... Earl LINDSAYBUGGARHS produced bit of Decree which says `crown lands`

The Norwegian man was given some money for it- 2 pence stamp no doubt -

It was blown up for the British EMPIRE & the Navy helped- records/photos the globe/

`1952/3 VERY SOON IT WAS BLOWN TO SMITHEREENS & Aunt BAXTER'S Island too-□ Jean's sister (her 2 sons murdered Australia 1953 by JIM & Lindsaybuggarhs)□ has her Island of the Moon next to the Island of the Sun- this sheltered island□ grew Wild Rice- both were left them by SAN JULIAN & JAMES WEDDELL Mariner Weddell SEA...

Jean's sister & her husband two sons were murdered by this Noble team-□ `Uncle Baxter he was a bookbinder from Argentine-a descendant of Dissenter BAXTER who got the better of evil Judge Jeffery 17th century Scarlet Town/□ (accounts/records/photos etc) They had a Sam Palmer painting for a wedding present from Aunt Mag- was stolen 1939 after false suicide Uncle Baxter- it has been sold & in the news- *murders by persons known-accounts/school report/USA research-*

We Ransom children noticed the enormous amount of liquor at these meetings- Len born

In civilized intelligent circles Len & I are referred to as 'The Ransom children- dear Margarethe's heirs-shaping up very well-they have such a care of the people & the lands...we all give a hand-make a visit every three or so years-the children are so natural & happy...'

1970- the decision 1939 to slay the GROTE HOMES children & make British Crown & Aristocrats rich was being heartily defended in *semi-secret gatherings*. The appearance of ANDRE MALRAUX

in the Whitehead family caused panic- threats-& rousing of that persecution at us as from 1947 the State used- strutting Aristocrats Earls Lindsaybuggarhs especially- one came to glare at GR 1951 Colchester- rich scoundrels who laid hands on lands-investments- properties they have taken by violent theft & murder

he come to speak to us & attempt to OPEN THE PAST but he is not careful who hears of this- I need my memory & ALL MY

stolen POST/

mail from 1933- & it apparently has been considerable to Greta Ransom W. since November 1967-

this is heard after the writers are dead-some far too early-

To have my lawful POST/mail will bring that understanding of the late 1950s to save us all- I CAN THEN BEGIN TO SAY WHAT IS NEEDED TO BE UNDERSTOOD BY SANE HUMAN-BEINGS ABOUT THIS HORRIBLE GENOCIDE... & if I am allowed my POST/mail then normality can gather- & the photographs~ documents- Deeds- properties- investments-vast lands-family records & memorabilia sent me & lawfully mine at 16,18, & 21 years of age will begin to give me then a normal memory-

Perhaps remove in some measure the crushing threats- insults- foul accusations of the criminally insane penniless NOBLE BRITAIN Vagrants & Scavengers going round the globe using their KUDOS to empty banks etc in name of

...

I need to speak with understanding of the horror of life given me since the end of the WAR- & in the wartime- the last of my grandparents Mary Gordon murdered because we were leaving summer 1944 for Southern Ireland & then ROME- & this vacuum of my life is still receiving the attention of blood & gore soaked Nobles & their highly paid thugs as JIM & Mengele Harrington who only organise the Teams of the State-Armed forces etc ...

PJPW says `I think he has come to give you some dignity-

I am touched by what he has gone through- I G R W am shocked by this understanding- but hath not words for explaining the physical attacks & madness I have had to live with going on about me since 1952 when I went to work for nearly 10 pounds a week at Colchester Castle Museum..`

PJPW

continues `...

BUT- I am not prepared to challenge the British Imperial Fist- it has been left for far too long- & I work for Government & Crown`

says PJPW BMNH Ichthyology-

I Greta Ransom am called a pauper by creatures about us- two powerful are Teresa Gordon R & one on Peter's side-both of them use HIGH DOPES...DECEIT IS HORRIFIC !`
So How am I to tell of the parcel with an explosive to burn my eyes out that was intercepted-
the 4 abductions-& the files of records kept by Arthur Malone & others-so many good
people in local administration & law helping...saying
`but when IT HAS GONE SO HIGH...they have the Armed Forces & have not shown any
remorse...the children are all dead...records hidden in the Admiralty are about...Jesus
~...wait until they go to Hell...`

I've been left with all this- & I do not know enough of Malraux's part in it 1960s...only that
there were arrangements being made to expose madness...

I have no memory now of Colne Engaine in its full meaning-& my symbolism & the
poems that are part a DIARY of that time I cannot risk speaking
upon...ridicule-denial-others attacked...

THIS GENOCIDE WAS COVERED UP...it had me with no words BECAUSE I HVE NO
POST-AND GOD IN ANY HEAVEN...THE FOUL INSANE FIGURES OF HIGH CLASS SIN
HAVE TAKEN MY POST THESE PAST 3 YEARS...thus isolating me further...

PJPW DOES NOT STAND A CHANCE IF HE HAS ANYTHING TO DO WITH THESE DOPE
FIENDS on

Divinorum Salvia Scotland

...OF HIS CLASS.... SO MUCH I DO NOT KNOW AND SO MUCH THAT IS HAPPENING
ABOUT US NOW...

I Greta Ransom do not have a language to speak about what has happened...it is only by
receiving my

stolen POST/mail

that I could possibly have the language to understand & speak upon

what ceased as an education for life December 1939

....

There are now massive records collected by everyone upon this FRAUD-SAVAGERY-Genocide
for purely GREED by the dope-fiends of a fallen Empire...

(PJPW has *his class*- noble Gross Britain creeping in to the BMNH lure him to expensive
places & not one of them is in the Sciences- all are layabouts with terrible private lives...
The Museum world is peopled by the intelligent & sane-they are worried about PJPW &
the elders know many things in the South Kensington Albert-O-polis)

PJPW 1970 winter 3.30am- `I want to read you some of my notes- WELL- CLEARLY THEY
HAVE GONE MAD UP THERE- DOPES- GREED- this

Eldorado would solve all their pennilessness-they'd all got horrific debts by the 1920s...my father kept away from them because they were insolvent
(Sir Philip Henry Rathbone Whitehead)

...I recall one or two things a child hears...I lingered at the lunch table at `Whitecross` Wallingford 1939 to hear the grown-ups very sad talking of a great Estate to be broken up...I only remember talk of GREENLAND...The Noble class brother Rowland goes into heard about it as kids- parents spoke...ELDORADO... it would solve their problems & they'd all be in the BIG TIME...`

1970 January/February 3 am o'clock pre-dawn ANDRE MALRAUX stayed late that night & after midnight *reading-talking* from his notebooks-

Unfortunately Peter will go & discuss this with limpets
next day-
who dress haute Paris
& are working for
IMPERIAL FIST

-
soon he is drawn into fork lunches- informal-a doss-house of the 1920s the criminally insane used to romp all over until the 1950s

...
PJPW would have been better talking `at Mill` - the British Museum Natural History...`
