**sometimes tearful that afternoon-the first afternoon...**

**1937 JOSETTE *JoJoh&Joh* comes for summer to THE SEAS EDGE...It is the first afternoon of their arrival & we go to Holland-on-sea the seafront for we must visit Unity's grandpa in the Convalescent Home take it in turns, all say hello then leave two of us with him-□ We begin to make the beaches below 'our beach'.□□**

*SHE, JO is sad & I watch her go to the water's edge*

then return, take off her stockings & high heels of brown & again to the seas edge- she walks in the waves that are gently retreating-perhaps -□□ A few people in deck chairs in groups some swimmers- I have noted the people ahead of us on the lower promenade as we all walk that first afternoon to make a meeting place/camp/ on the beach

*& I am almost tearful & feel I will not be wanted with two so tall people speaking French/English*

....& Freddie-Theatre is to come along a little later to be introduced...

Then Freddie & Unity's mother whom I sometimes call 'Stella' talk seriously to ANDRE. Yes- he has made her unhappy for he will not travel with her- she has come from Marseille at first dressed like a sailor boy

*to avoid one Clara who chases them with a gun.*

She must not tell her friends where they are come !□□□

*George*

-Andre has come by airplane to Croydon...

*we take off in our seaplanes from friends air strips...`we go up to Greenland for a beer` I hear said quietly when we are to go sailing on high with the stars...*

Freddie &

*Stella*

tell him

*Andre-or-George*

to go & walk with JO &

that she is a young girl.

1937 Summer JO is very tall hair brown but sometimes a sun streak I think clothes like Auntie Esther wears & her friends & they cling a bit.□ Jo has a bolero too & colours are soft browns cream-fawn & JO has an orangey-striped blouse a hat she pulls on & off that is fashionable from the modern films.□ We cannot use the '

she designs gravestones for local people & makes a water-colour of the headstone for people when they ask so□ they can have it in a hall or a sitting room above a writing

Freddie comes- but who will not stay for he has his theatre.. but it is settled he is to come out with us to Dedham later in the week...  
*then he dashes to his little car & he must rush off to his Clacton Theatre for they put on very good performances-*  
There is the sad tall girl

he

calls her.

He a little impatient I felt often nodding down at the ground from his tall very tall frame & a worried expression com'th & go'th but he is very polite to all of us & tosses his locks which sometimes cover half a cheek as he gyrates... He has held my hand as we crossed the road & began the descent to the beaches but he holds my arm too high & then he does not notice me again I think- He picked me up early afternoon from my brother's cot where I was standing on my tip-toes as JEAN does every day...  
I had been left for a sleep until they would come for me-  
*Stella*  
with the key...

Jo came over on her own from Marseilles- she disguised herself as a sailor- Oh Clara will kill her Freddie-& him perhaps

They are to stay the night-perhaps the next two or three days with me-

Freddie said he would look for Rooms near his Theatre

1937 SUMMER pre-dawn... I saw **Georges-Andre** his startled face peering down at me

why am I so small-supposing I stay a dwarf as she & Mr Pong say I am gong to be...  
they are getting a potion from Scotland...

The Essex shores summer & winter nights were perfect when the night was clear & cloudless & I felt we had gathered enough even though he had come from his SLEEP & stepped into my creation of a piece of common sense...A GIFT OF A PLACE TO REST YOUR MIND  
.....

*I could always send him a postal packet of tiny stars & stardusts to finish off...*

1937 Summer ANDRE MALRAUX reads his notebooks 1937... `MY GIFT OF A STARS MIND HOUSE-INCA-`

“I still said the house might be very dark inside & if I could not have the North Pole star- then could I have some of the other big stars to give me light. The reply was firm ! ! ! `N O!

-I must not think of that ! ! Not touch the big stars & the Constellations- they could not be touched for they were of such importance to those AT SEA.

I still said the house might be too dim inside- when we spoke of it later in the day. She said after some thought that as she came of this family of ancient people she could- she felt - be granted to make some alterations then ! ! She suggested I have in the entrance hall pale blue sky & some high white thin clouds- I had the same ideas now- & these clouds mists could be moved to the other rooms- when I entered to rest my brain...to think...`

` I said the mists & clouds could settle in the hall when I was not in residence & when I entered they could rise to illuminate- We came to an agreement here- it would probably be alright.

She said that there was nobody she could ask that SUMMER just then- Aunt Margarethe would probably not know- We could telephone a certain number kept in the Old Road house tucked away beside the

books & they might ring back & say she

*Margarethe-girl of the snows*

would make a telephone call to us- in two days-or more-and an hour would be given

.[] []

I did not take this seriously!

And I did not ask anyone!

I gathered from *Greetha* that by washing the sky little stars would be revealed & be the building stones & the star-dust the cement.[] In my house of stars where I am to go & rest my mind then... the cloud[] would drift upwards with me- where I chose to be-

I MADE SOME NOTES Summer 1937-[]

I did not believe she had been abroad-

1937 October AFTER WE LEFT IT WENT ON...a card came to us & on it she had written her name- & another hand had written separately for her

`THAT I MUST REMEMBER IN MY MIND those stars at night that we had both seen at Clacton-on-Sea-& if I would WRITE MY NAME ALONGSIDE HER NAME- then the stars would appear in my mind

& I would always have the memory of that summertime come to me & to JO...`

`We had intended returning perhaps in the Spring of 1938 but we would at sometime return to our friends at the seaside-` I

Andre Malraux

made this clear by a letter to Mary Gordon & on the telephone & I informed

*Greetha*

before we left...

from a Margaret Grote I accepted Guardianship of Greta Ransom-that was what I understood-

Her letter said I would hear more. There was NO ADDRESS so I could not reply.

**I PUT A TELEPHONE CALL** through & spoke with **MARY GORDON** as soon as I was able

to in OCTOBER 1937... I told her I ACCEPTED GUARDIANSHIP OF GREETHA ! I DID NOT

RECEIVE THE POST/mail DOCUMENTS- letters sent to me from sometime in OCTOBER 1937 from USA New York & England & the Argentine ` There was also some correspondence from other nations for my attention 1938 into 1939...I received NOTHING...

YOUR Government stole it all Peter !

They have kept the information from General de Gaulle & I for years...interfering with our lives...as a result hundreds of people connected to the Estate & of the families have died unnaturally !

The total of deaths is above a million persons since 1938...

`I WOULD HAVE ACCEPTED IMMEDIATELY GUARDIANSHIP OF THE WHOLE ESTATE- IT WAS WHAT I WAS LOOKING FOR ! I would have immediately returned to New York to see the Brokers-others- *WOULD SHE HAVE DIED...*
